

Hoover Happenings

For the week of 5.20.24

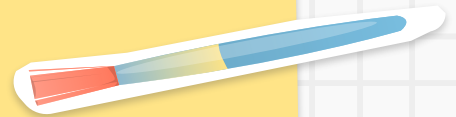

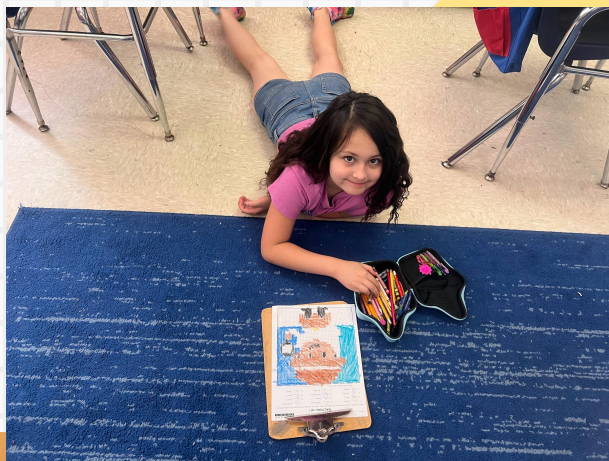

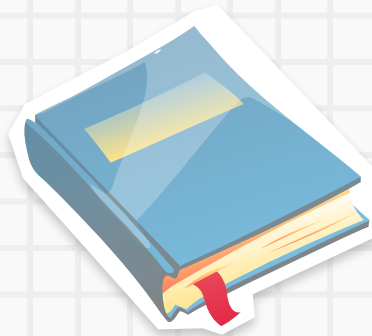

Mrs. Suder's Third Grade Class!

We are well into fractions now and the class is coming along really well. They had some fun today working on figuring out a mystery picture coloring activity.

We also spend some time playing math games, which was a fun activity for a half day with half a class!

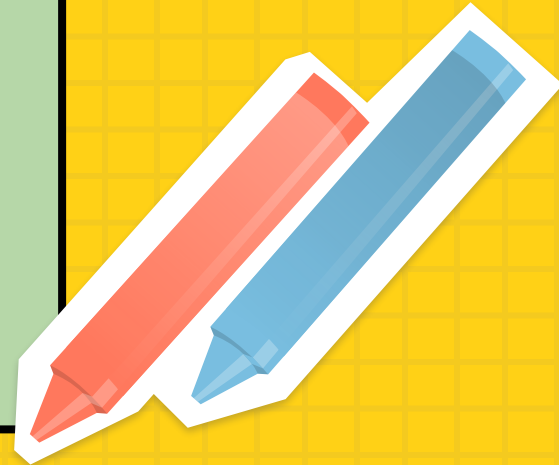

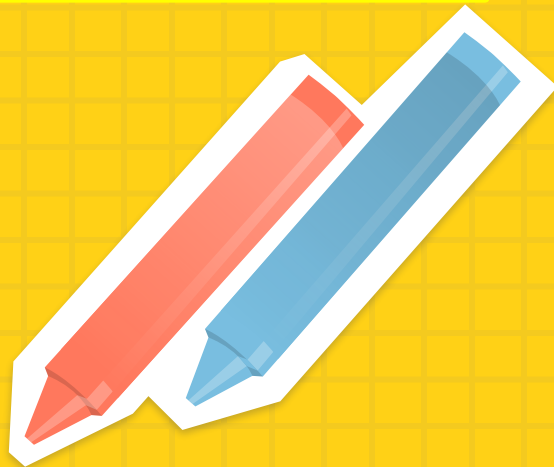

Mrs. Parmelee's Third Grade Class

We've had some nice outdoor times with our friends this week but that doesn't mean the learning is over! We are working hard on fractions (made our name in fractions this week!) and continuing our marine life study, research, reading, and writing. We are also wrapping up our study of Michigan history.

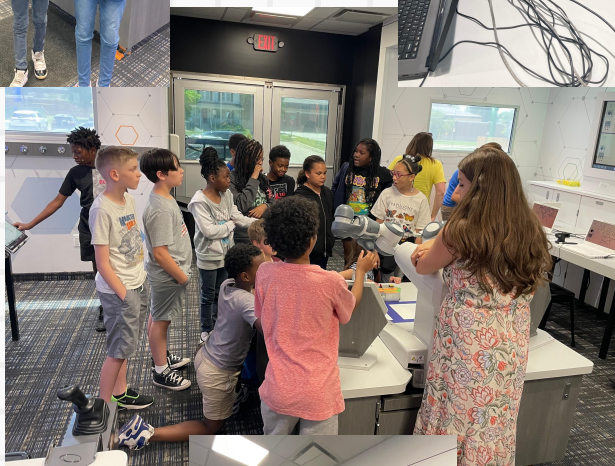

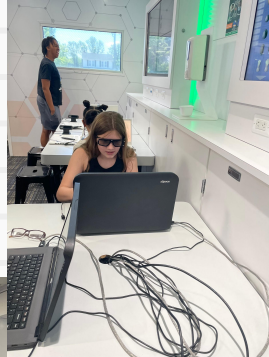

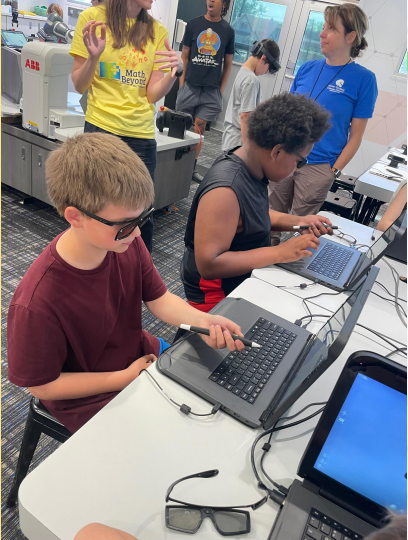

Ms. Johnson's Fourth Grade Class

STEMI TRUCK was the
BEST EXPERIENCE!!!!

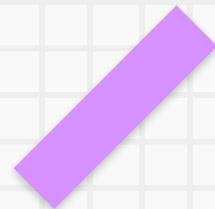

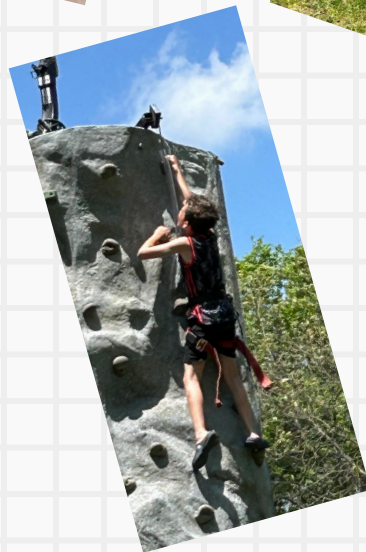

**Mr.
LeMere's**

Fifth Grade Class

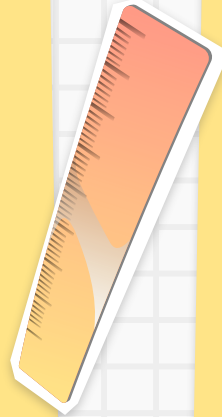

CAMP HAZELWOOD!

What a time we had at fifth grade camp! We learned about cold blooded creatures, went on a hike, built birdhouses, met several exotic animals when Dan the Creature Man came to visit, learned about life before technology, and climbed a rock wall! We bonded and had so much fun being together!

Mrs. Bienstock's Fifth Grade Class

CAMP HAZELWOOD!

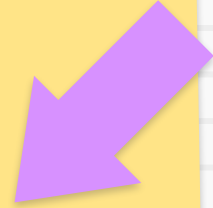

What a time we had at fifth grade camp! We learned about cold blooded creatures, went on a hike, built birdhouses, met several exotic animals when Dan the Creature Man came to visit, learned about life before technology, and climbed a rock wall! We bonded and had so much fun being together!

Mrs. Torres Steam & Art Class!

We used air dry clay to make Egyptian hippos, vases, and coil pots.
We loved using the clay!
