Dear Jardon/Webb Community,

The Jardon Talent Show was a great success! Our students and staff were able to showcase their talents and creativity. Some students even had artwork on display.

This week we are celebrating the completion of four Jardon students. We are very excited to honor them on Thursday evening as they complete their educational career with us.

Please join us on social media! Find us on Facebook by searching for Jardon Vocational School. You will see regular updates posted there about what's going on at Jardon! Please feel free to contact me at heidi.kunz@myhpsd.org or 248-658-5953, if you have any questions or concerns.

Thank you,

Heidi Kunz

We are heading into our final week of job site rotations and it's hard to believe we are at the end of another work rotation. This week, you should have received work reports for your student if they participate in a work based learning site. It has been amazing to see how far our students have come. I have had the privilege of seeing growth in not only job skills, but also soft skills. Looking at the work reports is a great way to see the growth your student has made and to also see where we can continue to work.

Resource Feature: Budgeting [Five Great Budgeting Apps](#)

PocketGuard Budgeting app [PocketGuard](#) connects to your bank accounts.

You will never be without instant transaction and balance access again. The app has an easy-to-understand [home screen](#) that monitors the amount of money in your pocket, your current income, and how much of it you have spent. This budgeting app dissects your spending habits, identifies recurring payments so you can plan for them, and provides a snapshot of your cash flow. Charts inform you where you spend by category. This in itself helps you find areas that require belt-tightening.

You Need a Budget YNAB, or [You Need a Budget](#), also connects directly to your bank account. YNAB highlights four financial rules: Plan for infrequent expenses, [give every dollar a job](#), roll with the punches if you overspend, and age your money. Beyond budgeting, you can watch online classes that help you get the most from this budgeting app.

Spendbook [Spendbook](#) features great tracking and [budgeting capabilities](#). Adding new income or expense transactions is a breeze. Photos of an item purchased, or a receipt, enhance the app's utility. Expenses and income are easily categorized. Daily and monthly expense reports are available with companion infographics and charts.

Home Budget Home Budget with Sync has a useful family-sharing feature. It allows users to set a budget and sync income and expenses among numerous devices. Home Budget allows users to track purchases and gain insight into spending habits with the aid of charts, infographics, or itemized lists. The aspect that sets this budgeting app apart from others is definitely the family-sharing capability.

Budget Boss [Budget Boss](#) is a very simple iPhone app. It helps you [create a budget](#), and it evaluates the strength of your budget. This is a perfect budgeting app for those looking for simple, quick, and easy budgetary assistance.

Budgeting IS Difficult Even with Budgeting Apps

In the introduction, we teased the “non-budgeter” by implying that apps will make budgeting an incredibly easy task. However, apps cannot work miracles. There are many reasons, beyond technology, which create budget-averse people. [Here are a few](#) of those reasons:

- Limiting ourselves financially makes us discouraged about our current financial situation.
- We simply have never been taught how to prioritize financial goals.
- Budgeting does not come naturally.
- Our financial choices are heavily influenced by how we were raised.

That said, budgets are a mandatory element of financial health. They help you save, stop you from spending what you don't have, expose bad spending habits, and pave the way to retirement.
