

October 24th, 2025

Dear Jardon/Webb Community,

Thank you for the amazing turnout for Parent Teacher Conferences. It was so great to see so many of you attending conferences in person! We really appreciate the opportunity to collaborate with you to best provide for the needs of our students.

Students participating in work based learning should have a work report to share with you today. Please take some time to review the report with your student to help support their growth.

Our first Fun Night of the year is coming up! Make sure you RSVP for our Jardon Spooktacular by October 24th. Students can attend Fun Night in costume but please keep costumes school appropriate. No costumes will be worn on our half day of school, October 31. Fun night is for former students and currently enrolled students only. We do allow for needed caregivers to attend to assist students.

Please join us on social media! Find us on Facebook by searching for Jardon Vocational School. You will see regular updates posted there about what's going on at Jardon! Please feel free to contact me at heidi.kunz@myhpsd.org or 248-658-5953, if you have any questions or concerns.

Thank you,

Heidi Kunz

This year, Chartwells has brought a weekly cooking class to our students. During this work rotation, several students from our MoCI program have had the opportunity to participate in a cooking class on Wednesday afternoons. Chartwells staff has been teaching cooking and baking basics, measurement tools, reading recipes, and understanding portions. This week, students made a breakfast that included pancakes, eggs, sausage, and fresh fruit.

We are so thankful to Chartwells for bringing this opportunity to our students and we look forward to including more students throughout the school year! Here are some pictures of our students in action:

Not Just a Shiny Trinket

Imagine you are at your favorite restaurant with a friend, catching up on all the latest. Suddenly, your friend stops talking and looks intently past your shoulder. Curious, you turn to see what has caught your friend's attention.

At the counter behind you, a young man is leaning over, red-faced and holding his arms across his stomach. He begins coughing, but it does not sound like a normal cough - it is high-pitched and wheezy. He reaches toward the jacket hanging over the back of his chair, but stops abruptly. You notice his arm shaking, then suddenly his body goes limp and he tumbles to the floor.

You look with shock at your friend, and both of you immediately get up and go to the man's side. His face appears pale and swollen. He is unconscious, breathing shallow, labored breaths. Your friend shakes the man's shoulder and calls loudly to him, with no response.

By this time, other diners have gathered around and someone yells to call an ambulance. As your friend picks up the phone and dials 911, you catch sight of something shiny on the young man's wrist. You turn his hand over and find a bracelet with the medical "staff and serpent" logo on it! On the other side is engraved:

*Aaron
Allergic to seafood and tree nuts
Carries EpiPens
ICE: (123) 456-7890*

Of course! You grab the man's jacket and pull EpiPens from the pocket. With the phone now on speaker, you relay Aaron's information, and the emergency operator walks you through giving Aaron a dose of epinephrine.

By the time the paramedics arrive, Aaron is breathing more freely and just beginning to wake.

If you *hadn't* found the information on Aaron's medical ID, how differently could this scenario have turned out?

Allergies, cardiac conditions, epilepsy, autism, diabetes, and bleeding disorders are just a handful of MANY medical conditions which require specific assessment and timely treatment in an emergency. A clear, accurately written medical ID - whether it is a bracelet, necklace, shoe tag, or the like - is much more than a fashionable accessory; it can speak for you if you are unable to speak for yourself!

If you have any chronic conditions or require special considerations for such, ask your healthcare provider how best to list them on an ID. For more information, check out::
