

What a GREAT week of learning we had. We spent time learning about the rules and routines of being a big kid at school. We began learning how to be a reader and we practiced recognizing and drawing with shapes.

Kindergarten is off to a great start!! The students participated in supply bootcamp and took challenges to learn how to use all their supplies! This will help us with all our routines that we will have to learn in kindergarten! Great job!!

## Mrs. Hughes' First Grade Class

We have had an amazing start to our school year! We have been working on routines and building a community in our classroom. One of our favorite activities was helping us to get to know one another by sharing things that are important to us.

We have been working hard to establish routines and procedures in all areas. One of our favorites so far has been our morning STEAM bins! Students explore and build while attendance and lunch order are taken first thing in the morning. What a great way to start the day!

## Mrs. Beller's

**Second Grade Class** 

This week we had fun doing various learning activities in math, reading and word study together!
Learning is always better when you have a friend to learn with!

## Mrs. Yager's Second Grade Class

77977777

This week in second grade we enjoyed learning the value of coins~
